STRATEGY

PP 009 / JUNE 2019

Education Strategy 2019/2020

The Registered Organisations Commission (the ROC) seeks to foster a culture of voluntary compliance in registered organisations. Part of how we aim to achieve this is by providing accurate, relevant and easily accessible education services and tools for organisations and their members.

What you need to know

As part of our commitment to assisting registered organisations, the ROC has set out in this document its national 2019/2020 Education Strategy. This is a planning tool.

The ROC has consulted with organisations and peak bodies about the education services they seek from us. In response we have developed the Strategy which is comprised of a series of scheduled workshops, podcasts, newsletters and other educational materials and resources.

How to use this document

The ROC Education Strategy is designed to enable you, or your organisation, to plan and schedule for the education services you need or would like to utilise. It sets out the ROC's planned education projects from July 2019 to June 2020. It includes a timeline for new and updated education materials, face-to-face workshops, quarterly newsletters, podcasts, and other educational materials and resources.

Feedback?

If you would like to provide feedback about the Strategy, or about improvement to any of our resources, please email regorgs@roc.gov.au.
