**Registered Organisations Commission**

# E-Learning Centre

The Registered Organisations Commission provides governance and compliance education to registered organisations and their officers, supported by practical resources.

To complement our traditional education resources, the ROC is developing online modules to provide interactive learning opportunities. These modules can be undertaken through personal computers and tablets, however they are not yet compatible with smart phones.

We will endeavour to build on our suite of modules in accordance with the [ROC's Education Strategy](#), and our release schedule will be flexible to ensure that we are continuing to meet the needs of our stakeholders.

A user account is not required to complete this e-learning module and your personal information will not be collected. However we do collect depersonalised web analytics using cookies. This information is anonymous and cannot be used to identify you personally.

## Available e-learning modules

Modules are best viewed on a desktop in [Chrome](#)

### [Whistleblower disclosures](#)

Approximate duration: 30 minutes

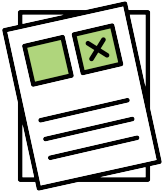

## [Officer and related party \(ORP\) disclosure statement](#)

Approximate duration: 30 minutes
